

STARLINK OG FERÐALÖG

LOKUN 2G OG 3G!

Fjarskiptastofa minnti á að lokun 2G og 3G farsímaþjónustu hér á landi fram í áföngum og yrði lokið hjá öllum fjarskiptafyrirtækjum í síðasta lagi í árslok 2025. Raunin varð 2026.

Hvað breyttist hjá notendum?

Símtæki og tæki sem aðeins styðja 2G/3G hættu að virka.

Símtæki sem ekki styðja VoLTE (Voice over LTE) eða hafa ekki virkjað þá stillingu hættu að virka.

Ýmis tæki til vöktunar, mælinga og stýringa, sem aðeins styðja 2G/3G, hættu að virka.

ATH! Fjarskiptastofa minntist ekki á svæði þar sem eingöngu hefur verið 2g/3g

HVAÐ BREYTTIST HJÁ NOTENDUM?

Dæmi um síma sem styðja **EKKI** VoLTE hjá Símanum

OnePlus

HVAÐ
ER
HÆGT
AÐ
GERA
?

STÖÐUGT* NET Í GEGNUM GERVIHNÖTT

AÐALMÁLID: WIFI CALLING

SÍMA
SAMBAND
HVAR SEM ER!

Starlink **Roaming** er router og gervihnattadiskur í einu tæki. Hann þarf bara straum frá inverter eða sígarettukveikjaratengi. 220v/12v. Sitt hvor spennubreytirinn.

Heldur órofnu* sambandi við Internetið

- Heldur órofnu símasambandi (símar verða að styðja wifi calling, og hafa það virkt)
- Ekkert þarf að gera öðruvísi til að hringja, eða taka á móti símtölum
- Sagt eyða 60-70w, max 100w.
- Appið hefur sýnt mér 15w, en eykst um leið og maður fer að vafra um netið.
- Heldur stöðugu sambandi þó maður sé að brölta og bíllinn að sveiflast til og frá í grjóti.
- Þolir veður „*Starlink is designed to endure the elements - it can melt snow and withstand sleet, heavy rain, and harsh winds.*”

VERT AÐ HAFA Í HUGA

- Starlink er ekki að fara veita símasamband ef maður veltir bílnum. Hafa **inReach** garmin tæki í hanskahólfinu (með áskrift)
- Allir í bílnum í símanum allan daginn, ekkert að horfa út um gluggann?
- Hægt að hringja í mann og trufla mann hvar sem er.
- Hægt að taka með fartölvuna og hafa skrifstofuna í bílnum!
- Ýmsir möguleikar með góðu netsambandi (aðgengi að online kortum, veðurspá, ofl.).
- Hægt að labba drúgan spöl frá bílnum og vera í sambandi.

Pause your current service with Standby Mode

Standby Mode

ISK 760/mo (ISK 0 due today)

Includes unlimited low-speed data for emergency messaging and easy reactivation even in dead zones.

By pausing, your current service will continue through October 19 and then switch to Standby Mode. You'll be billed ISK 760 each month beginning on October 19.

By switching to Standby Mode, you are accepting the terms of service.
